

## LET LIFE SHINE

Life is a beautiful thing. It brings joy and happiness, love and aid. Unfortunately, however, many people cannot see the beauty of children. For them the slaughter of innocent babies is hidden in darkness. If they live in darkness, then we are here to bring them Light.

We know that all babies have a right to life. However some people do not know this. They believe the lies they are told. They are deceived and tricked into believing that nothing really happens in the womb, that instead of a live, active human, it is just a bundle of tissue. They think they will never be happy if they have a baby. They're wrong. A baby brings amounts of joy that can never be measured. When a small child draws what they think is a picture but you know is a mass of scribbles, is there not joy in that? We need to bring to light the awfulness and horror of what is happening to babies around the world. We are the light. We must bring light. As Our Lord tells us in the Gospel of Matthew: "You are the light of the world. Let your light so shine before men, that they may see your good works and give glory to your Father who is in heaven." We let our light shine by drawing pro-life pictures and writing pro-life essays. We use these to open the eyes of the blind.

If some may live in darkness, then who will bring them light, if not us? We are the light of the world. Christ told us this. We must continue every day to strive to stop the mass murder and show people what is really happening. Babies are defenseless. Therefore, we must be their defense. Let life shine!
