

# Have you ever thought of what abortion really means?

**AT 15 WEEKS, AN UNBORN BABY CAN FEEL PAIN.**

**She deserves protection.  
In Oregon, she doesn't have it.**

In Oregon, abortion is legal until birth. The same baby who feels pain can be aborted for any reason. For most Oregonians, limiting later abortions is common sense. But not for radical, pro-abortion politicians.

That's not all. CDC data shows that as many as 143 babies have tragically died after failed abortions. In Oregon, there are no laws requiring medical care for a baby who survives an abortion.

## **Resources are available to care for pregnant women and babies**

Do you know a woman or family in need of life-affirming resources?  
Visit [ortl.org/care](http://ortl.org/care) to find care in your area.
