

DOOR-TO-DOOR ADVOCACY

Call Oregon Right to Life at 503-463-8563 with questions.

Hi, this is ___ with Oregon Right to Life here to ask you a very quick survey on your opinion about the issue of abortion. First, Do you support or oppose a ban on abortions starting at 15 weeks in a pregnancy with some exceptions?

SUPPORTS 15-WEEK LIMIT

(End Survey) Great, thank you so much for your time!

UNSURE/OPPOSE 15-WEEK LIMIT (Push 1)

You may not be aware, at 15 weeks gestation, science shows that an unborn baby can feel pain, making abortions at this stage excruciating for the unborn. With that information, do you now Support or Oppose a ban on abortions at 15 weeks in pregnancy with some exceptions?

IF STILL UNSURE/OPPOSED (Push 2)

Final question. Our community has both public and private resource centers that support mothers and babies with diapers, clothing, parenting classes, and so much more. Knowing that the unborn baby can feel pain, and knowing our community has ample resources to meet the needs of mothers and their babies, how would you answer the question now? Do you Support or Oppose a ban on abortions at 15 weeks in pregnancy with some exceptions? (End survey) Great, thank you so much for your time!
